

**Name:Neoprene Gaskets For Oil Resistance**

**Material:Neoprene/Chloroprene rubber (CR)**

**Hardness:70±5 shore A. Custom hardness is available,range from30 shore A to 85 shore A.**

**Color: Black.**

**Size: Round 30mm outside dimension with oval hole, if you haven't found your needs, please contact us for customized.**

**Temperature resistance: -40°C~120°C**

**Advantage: 1.Excellent performance in Ozone resistance and weather resistance. 2. Tensile strength is good.**

**Application fields: Construction, automobile, pipe, bearing,etc.**
